QUALITY ASSURANCE INITIATIVES

Curriculum Review and Update

Regular reviews and feedback were taken from the stakeholders, and updated the curriculum to incorporate the latest industry trends, technological advancements, and global business practices. This ensures that students are equipped with relevant skills and knowledge.

Sustainability Across Disciplines

Integrate sustainability concepts and case studies across disciplines, ensuring that students from various majors comprehensively understand the environmental, social, and economic dimensions of sustainability.

Industry Collaboration

Foster strong ties with industry leaders and organizations. Establish advisory boards comprising industry experts to provide insights on curriculum relevance and industry demands and to facilitate internship and placement opportunities.

Student Feedback Mechanism

Implemented a robust system for collecting and analyzing student feedback regarding courses, faculty, infrastructure, and overall learning experience and used this feedback to make data-driven improvements.

Internship and Placement Support

Strengthened the placement cell to provide comprehensive support for internships and job placements. Developed strong relationships with companies for on-campus recruitment and ensured students were well-prepared for the job market.

Faculty Development

Faculty development programs have been arranged, and faculties are encouraged to participate in FDPs and MDPs to enhance their teaching skills and subject expertise. Encourage faculty members to attend workshops conferences, and engage in continuous learning.

Quality Assurance Initiatives

Research and Publications

Faculty and students are engaged to participate in research activities and contribute to academic publications. This enhances the college's reputation and ensures that the faculty stays current in their fields.

Continuous Improvement

Established a culture of continuous improvement by conducting regular internal audits and assessments. Use the findings to make informed decisions about areas that need enhancement and celebrate successes.

Student Support Services

Providing a robust student support service, including counselling, career guidance, and mentorship programs. Ensure that students receive the necessary support to overcome academic and personal challenges.

Diversity and Inclusion

Foster a diverse and inclusive environment that values perspectives from different backgrounds. Implement initiatives to ensure equal opportunities for all students.

Green Initiatives

Implemented sustainable and eco-friendly practices on campus, reflecting the college's commitment to environmental responsibility.
